

Quality HVAC and Mechanical Construction Services.

Designed to Enhance Productivity and Reduce Costs.

For over 90 years, Illingworth-Kilgust Mechanical, Inc. (Illingworth-Kilgust Mechanical) has provided customers a full range of customized HVAC, plumbing, industrial piping, and air duct systems solutions. Through innovative design, quality execution, and a deep knowledge of the products we offer, Illingworth-Kilgust Mechanical has successfully completed 6,000+ projects for 800+ customers in the past year.

Illingworth-Kilgust Mechanical provides HVAC and mechanical construction services that truly enhance the productivity of clients' assets. Our team of estimators, designers, and project managers work as partners with our clients to ensure strong communication throughout every project. We install a full range of single-source, HVAC, plumbing, piping, process gas, and fluid equipment and systems. The result is fewer delays, fewer change orders, and minimal conflicts with other trades.

- » Make-up air units
- » Rooftop units
- » Steam, hot, and chilled water piping
- » Unitary heat pumps
- » Variable air volume
- » Ventilation

Single Source. With a Single Focus.

At Illingworth Kilgust, our HVAC programs help enhance reliability and performance for peak operation and longer system life. We can even help repair or retrofit existing systems, which can be significantly cheaper than replacing an underperforming system. Also, as a non-OEM service provider, our single focus is clients' needs. We provide the best possible equipment, technology, and methods in the marketplace, and our services can play a vital role in delivering more reliable, productive, and economical operation, while enhancing the overall value of clients' existing assets.
